

Final Programme
5 - 6 November 2010, Budapest, Hungary

Friday, 5 November 2010			
Erzsebet room		Buda room	
10'	Welcome speech, Paolo Pelosi, ESA President		
11.30-13.00	Foundations I, chaired by A. F. Smith	Practice I, chaired by M. Camorcia	
	How to get your research published Philip Hopkins (Leeds, UK)	Perioperative pain management in the neurosurgical patient Concezione Tommasino (Milan, Italy)	
	Evidence into practice: How to read a paper and run a journal club Andrew F. Smith (Lancaster, UK)	Difficult intubation and management of laryngospasm in children Walid Habre (Geneva, Switzerland)	
	Epidemiology, tools and team-aspects of patient safety Sven Staender (Mannedorf, Switzerland)	Practice guidelines for obstetric analgesia Michela Camorcia (Rome, Italy)	
14.00-15.30	Foundations II, chaired by P. Wauters	Practice II, chaired by I. Matot	
	Monitoring guidelines in the perioperative period Wolfgang Buhre (Utrecht, the Netherlands)	Supportive and adjunctive therapy of sepsis Gernot Marx (Aachen, Germany)	
	Pathophysiology and treatment of Right Ventricular Failure Patrick Wouters (Gent, Belgium)	Management of massive bleeding in the OR Idit Matot (Tel-Aviv, Israel)	
	Pharmacology of local anaesthetics Elisabeth Gaertner (Nice, France)	ARDS treatment Michael Quintel (Göttingen, Germany)	
16.00-17.30	Foundations III, chaired by B. Pannen	Practice III, chaired by P. Pelosi	
	Pharmacokinetics and pharmacodynamics in clinical anaesthetic practice Claude Meistelman (Nancy, France)	Perioperative Respiratory Management ventilation in morbidly obese patients Paolo Pelosi (Varese, Italy)	
	Preoperative assessment of pulmonary function Hans Rothen (Bern, Switzerland)	Drugs and anaesthetic techniques in Day Case Anaesthesia Jan Jakobsson (Stockholm, Sweden)	
	Treating intracranial hypertension: What is evidence based? Benedikt Pannen (Düsseldorf, Germany)	Postoperative cognitive deficits in the elderly Bernadette Veering (Leiden, the Netherlands)	

Saturday, 6 November 2010			
Erzsebet room		Buda room	
9.00-10.30	Foundations IV, chaired by C. Meistelman	Practice IV, chaired by L. Christiansson	
	Non-invasive respiratory support in the postoperative period Paolo Pelosi (Varese, Italy)	The geriatric patient: The Impact of anaesthetic choice Bernadette Veering (Leiden, the Netherlands)	
	Respiratory monitoring Hans Ulrich Rothen (Bern, Switzerland)	Postoperative pain and emesis in Day Case Anaesthesia Jan Jakobsson (Stockholm, Sweden)	
	Residual relaxation: Diagnosis, incidence and treatment Claude Meistelman (Nancy, France)	Opioids and adjuvants in regional anaesthesia Lennart Christiansson (Uppsala, Sweden)	
11.00-12.30	Foundations V, chaired by W. Buhre	Practice V, chaired by G. Marx	
	The role of regional anaesthesia in perioperative care Elisabeth Gaertner (Nice, France)	Weaning from mechanical ventilation Michael Quintel (Göttingen, Germany)	
	Perioperative medical support of the patient with severe myocardial dysfunction Patrick Wouters (Gent, Belgium)	Re-evaluation of transfusion triggers Idit Matot (Tel-Aviv, Israel)	
	Perioperative neuromonitoring and outcome Wolfgang Buhre (Utrecht, the Netherlands)	Potential and pitfalls of minimal invasive haemodynamic monitoring Gernot Marx (Aachen, Germany)	
13.30-15.00	Foundations VI, chaired by S. Staender	Practice VI, chaired by C. Tommasino	
	Eight simple measures for patient safety and why we do not follow them Sven Staender (Mannedorf, Switzerland)	New techniques of labor neuraxial analgesia Michela Camorcia (Rome, Italy)	
	Quality improvement approaches for anaesthetic practice Andrew F. Smith (Lancaster, UK)	Anaesthetic aspects of upper airway infection and ENT surgery in children Walid Habre (Geneva, Switzerland)	
	Presenting your research Philip Hopkins (Leeds, UK)	Fluids management in the neurosurgical patient Concezione Tommasino (Milan, Italy)
