

Day	Time	Hall	Code	Title	Speakers
Sunday	09.30-11.30	1	SS01	A Deeper Look at Neuromuscular Blockade Management: The Role of Sugammadex Welcome and introductory remarks The need for deep blockade Preventing residual blockade and its complications The clinical benefits of routine reversal with sugammadex Closing remarks Question-and-answer session Satellite Symposium supported by an unrestricted educational grant from MSD	Hanna Illman (Turku, Finland) Claude Meistelman (Nancy, France) Hanna Illman (Turku, Finland) Claude Meistelman (Nancy, France) Glenn Murphy (Evanston, IL, USA) Hans de Boer (Groningen, The Netherlands) Hanna Illman (Turku, Finland) Claude Meistelman (Nancy, France)
Sunday	12.15-13.45	3c	SS02	Managing the patient with cardiac disease: the value of preconditioning and fast-track protocols Preconditioning for the patient with cardiac disease Leipzig fast-track protocol: effective, safe and economical Satellite Symposium supported by an unrestricted educational grant from GlaxoSmithKline	Gavin NC Kenny (Glasgow, UK) Mike Irwin (Hong Kong, China) Jörg Ender (Leipzig, Germany)
Sunday	12.15-13.45	102	SS03	2nd Annual Patient Safety Symposium - CO2 Monitoring for Patient Safety in all Clinical Environments Better monitoring for patient safety Non-intubated Capnography in all settings Take a deep breath; Capnography is coming to your ICU Capnography, GI Endoscopy & Patient Safety Satellite Symposium supported by an unrestricted educational grant from Oridion Medical 1987 Ltd	Hans Knappe (Utrecht, the Netherlands) Hans Knappe (Utrecht, the Netherlands) Baruch Krauss (Boston, MA, USA) Sharon Einav (Jerusalem, Israel) Andrea Riphaut (Bochum, Germany)
Sunday	12.30-13.30	3b	SS04	Peri-operative optimization - See more than others Are blood pressure and heart rate enough to guide fluid therapy perioperatively? Using PiCCO-based algorithms for perioperative hemodynamic How should we manage complications? Satellite Symposium supported by an unrestricted educational grant from Pulsion Medical Systems AG	Jean-Louis Teboul (Paris, France) Javier Belda (Valencia, Spain) Javier Belda (Valencia, Spain) Matthias Goepfert (Hamburg, Germany) Michael Quintel (Goettingen, Germany)
Sunday	12.30-13.30	101ab	SS05	Heavy Speedy Spinal Is spinal anaesthesia still suitable for ambulatory surgery? Heavy and Speedy: heavy Prilocaine Safety of hyperbaric Prilocaine: clinical and experimental data Satellite Symposium supported by an unrestricted educational grant from Sintetica S.A.	Nariner Rawal (Örebro, Sweden) Paul F. White (Dallas, TX, USA) Guido Fanelli (Parma, Italy) Karl Hampf (Aarau, Switzerland)
Sunday	12.30-14.00	101c	SS06	Improving quality of recovery - You make the difference Introduction - The impact of anaesthesiologists' decisions on patient recovery Case studies - The importance of anaesthetic and analgesic choices Questions and answers Conclusion Satellite Symposium supported by an unrestricted educational grant from Baxter	Joachim Boldt (Ludwigshafen, Germany) Joachim Boldt (Ludwigshafen, Germany) Jaume Canet (Barcelona, Spain) Marc Beaussier (Paris, France) Patricia O'Neill (Lisbon, Portugal) All Joachim Boldt (Ludwigshafen, Germany)
Sunday	12.30-14.00	3f	SS07	PIPC – Post Intubation Pulmonary Complications - who cares? Are we aware of the PIPC problem at all? Are new preventive intra-operative approaches effective? Do we prevent PIPC postoperatively? Satellite Symposium supported by an unrestricted educational grant from Covidien	Jean Damien Ricard (Paris, France) Michael Quintel (Goettingen, Germany) Jan Poelaert (Brussels, Belgium) Giorgio Conti (Rome, Italy)
Sunday	12.30-14.00	3e	SS08	Management of massive bleeding in elective and emergency surgery Current practice of bleeding management: The evidence for effectiveness and risks An elective surgery model for successful bleeding management: Fibrinogen concentrate in aortic surgery Outcome data of "Platelet/FFP - free trauma management" matched against a multinational registry Rational and timely haemostatic intervention in severely bleeding patients: mechanistic and practical considerations. Satellite Symposium supported by an unrestricted educational grant from CSL Behring GmbH	Aryeh Shander (Englewood, NJ, USA) Donat R. Spahn (Zürich, Switzerland) Marc C. Samama (Paris, France) Niels Rahe-Meyer (Hannover, Germany) Herbert Schöchel (Salzburg, Austria) Benny Sørensen (London, UK)
Sunday	17.00-18.30	3f	SS09	ICU SEDATION – Are we satisfied? Introduction Overview of sedative agents currently used in the European ICU Current ICU sedation strategies in the USA Electrophysiological monitoring of sedation level in intensive care, Sedation in the ICU: problems and solutions Satellite Symposium supported by an unrestricted educational grant from Orion Pharma	Jean-Louis Vincent (Brussels, Belgium) Jukka Takala (Bern, Switzerland) Robert Sladen (New York, USA) Jean-Louis Vincent (Brussels, Belgium) Jouko Jalonen (Turku, Finland) Robert Sladen (New York, USA) Arvi Yli-Hankala (Tampere, Finland) Jukka Takala (Bern, Switzerland)
Sunday	17.00-18.30	101d	SS10	PDMS – Benefits in ICU and Anesthesia Anesthesia Management System Data Reporting Workflow support in Critical Care Continuum of care in Anesthesia and ICU – New Philips ICIP E.0 Satellite Symposium supported by an unrestricted educational grant from Philips Healthcare	Gert Jan Scheffer (Nijmegen, Netherlands) TBC Lorenzo Quinzio (Böblingen, Germany)

Day	Time	Hall	Code	Title	Speakers
Monday	09.00-11.00	206	SS11*	Video Laryngoscopy in daily use and Airway Management History of video Laryngoscopy Teaching Emergency Medicine Intensive Care Medicine Anaesthesia Difficult Airway Discussion Conclusion / Closing Remarks	Volker Dörge (Kiel, Germany) Christian Byhahn (Frankfurt, Germany) Matthias Helm (Ulm, Germany) Rüdiger Noppens (Mainz, Germany) Erol Cavus (Kiel, Germany) Volker Dörge (Kiel, Germany)
	11.15-13.00	205	SS12*	Station 1 Emergency Station 2 Intensive Care Station 3 Operating Theater / Teaching Station 4 Difficult Airway Management Satellite Symposium and Workshop supported by an unrestricted educational grant from Karl Storz <i>*Registration required - for more information visit Karl Storz at stand k25</i>	Volker Dörge (Kiel, Germany) Matthias Helm (Ulm, Germany), Andreas Schwartz (Ulm, Germany) Rüdiger Noppens (Mainz, Germany), Tim Piepho (Mainz, Germany) Christian Byhahn (Frankfurt, Germany), Sabine Merz (Villingen-Schwenningen, Germany) Erol Cavus (Kiel, Germany), Carsten Thee (Kiel, Germany)
Monday	09.30-10.30	3e	SS13	Spinning the Wheel of Fluid Thinking Supporting the Macrocirculation. New Data in Trauma Taking Care of Coagulation Issues Satellite Symposium supported by an unrestricted educational grant from Fresenius Kabi Deutschland GmbH	Hugo Van Aken (Münster, Germany) Michael F.M. James (Cape Town, South Africa) Sibylle Kozek-Langenecker (Vienna, Austria)
Monday	10.30-11.30	3d	SS14	Perioperative respiratory complications in the obese patient Induction and maintenance of anesthesia Postoperative care Satellite Symposium supported by an unrestricted educational grant from Maquet Critical Care AB	Göran Hedenstierna (Uppsala, Sweden) Samir Jaber (Montpellier, France) Klaus Lewandowski (Essen, Germany)
Monday	12.00-13.30	3f	SS15	Advanced monitoring in anesthesia for improved outcomes In the spotlight - Depth of anesthesia and patient outcomes? Improving surgery outcomes by combining cerebral oximetry and BIS New respiratory monitoring strategies for improved patient safety outside the OR theatre Satellite Symposium supported by an unrestricted educational grant from Covidien	Dan Longrois (Brabois France) Harvey L. Edmonds (Louisville USA) Frank Overdyk (Charleston, USA)
Monday	12.00-13.30	3e	SS16	Delivering on Better Transfusion Therapies: Appropriate Use of Fresh Frozen Plasma & Prothrombin Complex Concentrates Fresh Frozen Plasma Audits and Warfarin Reversal Benefits and Risks of Prothrombin Complex Concentrates Appropriate use of Prothrombin Complex Concentrate: A Practical Approach to Translating Guidelines into Practice Clinical Use of Prothrombin Complex Concentrate Satellite Symposium supported by an unrestricted educational grant from Octapharma AG	John Grant-Casey (London, UK) James O'Donnell (Dublin, Ireland) Christine McQuillan (Liverpool, UK) Hannah Cohen (London, UK)
Monday	12.00-14.00	3d	SS17	Optimizing anaesthesia delivery: advances in monitoring, agent delivery & automation SPI: development and initial clinical studies The SPI in daily clinical practice: from bench to bedside Optimizing volatile anesthetic agent delivery End-tidal Control: view from the frontline Satellite Symposium supported by an unrestricted educational grant from GE Healthcare	Arvi Yli-Hankala (Tampere, Finland) Gilles Lebuffe (Lille, France) Arvi Yli-Hankala (Tampere, Finland) Berthold Bein (Kiel, Germany) Valérie Billard (Paris, France) Philip Barclay (Liverpool, UK)
Monday	12.15-13.45	3c	SS18	Difficult Airway Management Airway Management with flexible optic scopes: present and future Intubation via supraglottic airway device using a flexible optical Scope Satellite Symposium supported by an unrestricted educational grant from Ambu	Michael Seltz Kristensen (Copenhagen, Denmark) Carin Hagberg (Houston, TX, USA)
Monday	12.30-13.30	208	SS19	New oral anticoagulants in the orthopaedic setting Welcome and introduction New oral anticoagulants: present and future Introduction of a new anticoagulant in an orthopaedic department: implications for the anaesthesiologist Practical management of patients with elective hip or knee replacement surgery: discussion from an orthopaedist's perspective Panel and audience discussion Summary and close Satellite Symposium supported by an unrestricted educational grant from Bayer Schering Pharma	Alain Borgeat (Zürich, Switzerland) Juan V. Llau (Valencia, Spain) Chairmen Rupert M. Bauersachs (Darmstadt, Germany) Alain Borgeat (Zürich, Switzerland) Lasse Lapidus (Stockholm, Sweden) Alain Borgeat (Zürich, Switzerland), Juan V. Llau (Valencia, Spain)
Monday	12.30-13.30	101c	SS20	Peri-operative bleeding management: Good blood, old blood or new balanced colloids? Trauma-associated coagulopathy Avoiding acidosis: balanced colloids, plasma or RBC? Transfusion of RBC: outcome and indications Satellite Symposium supported by an unrestricted educational grant from B. Braun Melsungen AG	Dietmar Fries (Innsbruck, Austria) Donat Spahn (Zurich, Switzerland) Dietmar Fries (Innsbruck, Austria) Rolf Zander (Mainz, Germany) Donat Spahn (Zürich, Switzerland)
Monday	12.30-13.30	3b	SS21	Hemodynamic Optimization: The Time is Now ! Hemodynamic Optimization in Surgical Patients: A Critical Analysis of the Evidence Arterial Pressure Based Cardiac Output Monitoring: An Update Stroke Volume Variation: Temptations and Pitfalls Satellite Symposium supported by an unrestricted educational grant from Edwards Lifesciences	Benoit Vallet (Lille, France) Mark Hamilton (London, UK) Mark Hamilton (London, UK) Cor Slagt (Zaandam, the Netherlands) Frédéric Michard (Geneva, Switzerland)
